

**COUNTY OF CHENANGO
BOARD OF SUPERVISORS**
Chenango County Office Building
5 Court Street, Norwich, N.Y. 13815
(607) 337-1430 Fax: (607) 337-1435

RC Woodford
Clerk of the Board
County Auditor

Lisa Darling
Deputy Clerk of the Board
Deputy County Auditor

October 19, 2010

Environmental Protection Agency
Region 2
290 Broadway
New York, NY 10007-1866

To Whom it May Concern:

On behalf of the Agriculture, Buildings and Grounds Committee please find attached a draft resolution approved by that committee. We expect it will be adopted unanimously by the Board of Supervisors on November 8, 2010. Since time is of the essence I have been asked to forward the draft resolution immediately. Upon adoption by the Board the resolution will be transmitted again.

If I can be of any further assistance, please let me know.

Sincerely,

RC Woodford, Clerk
Chenango County Board of Supervisors

RESOLUTION #11-*

**EXPRESSING OPPOSITION TO THE
CHESAPEAKE BAY TOTAL MAXIMUM
DAILY LOAD (TMDL) REGULATORY
PROPOSAL BY THE UNITED STATES
ENVIRONMENTAL PROTECTION AGENCY
(EPA)**

The Agriculture, Buildings, & Grounds Committee offered the following, and moved its adoption:

WHEREAS, clean water and healthy watersheds are a priority for New York farmers, which play a critical role in proven and successful local efforts to conserve and protect New York's natural resources; and

WHEREAS, the U.S. Environmental Protection Agency Region 3 is implementing a Chesapeake Bay TMDL which imposes new and costly federal regulations on approximately 19 counties, 650,000 residents and 2,000 New York family farms within the NY portion of the Chesapeake Bay watershed area; and

WHEREAS, New York accounts for 10% of the total watershed area which is mostly forested (76%), is home to 4% of the total population in the watershed with agriculture (21%) being the dominant business sector; and

WHEREAS, the federally-designed TMDL, intended to limit nitrogen, phosphorous and sediment discharges into the Chesapeake Bay watershed, is now projected to cost New York State as much as \$250 million over the next 15 years, without being able to satisfy EPA's regulatory goal; and

WHEREAS, the best way to achieve the important public benefit of clean water at a regional level is through locally led conservation efforts, rather than a top-down federal, one-size-fits-all regulatory approach such as EPA's TMDL for the Chesapeake Bay watershed; and

WHEREAS, EPA's proposed TMDL regulation imposes disproportionately heavier restrictions for water quality in New York in order to help other states meet their overall TMDL goal, ignores New York's excellent record of environmental accomplishments over the past 25 years using state and local conservation efforts and forces unrealistic costs on the businesses, governments and residents within the watershed area; and

WHEREAS, even if the other states achieve their EPA mandated allocations by 2025, their water would still contain higher nutrient loads per acre than New York's current 2010 load per acre because of progressive natural resource management programs like New York State's Agricultural Environmental Management Program; and

WHEREAS, even with the elimination of animal agriculture and utilizing every best management practice available in the watershed area, New York would still not be able to meet EPA's TMDL allocation; and

WHEREAS, we object to EPA's discriminatory regulatory process that disproportionately burdens our farm communities with costly mandates, weakens our rural economies, disrupts local food systems and provides no additional water quality protection for the Chesapeake Bay watershed; and

WHEREAS, we oppose EPA increasing its federal regulatory control and usurping state and local jurisdiction and authority in order to impose their TMDL, instead of working collaboratively with State agriculture and environmental protection agencies, Soil and Water

Conservation Districts and local communities to address Bay watershed water quality concerns; and

WHEREAS, we object to the fact that in order to satisfy EPA's regulatory goals without confirmation of water quality improvement, EPA has not ensured realistic delivery of needed funding and technical assistance and has not provided regulatory flexibility to allow for implementation of continually improving on-farm practices in response to site-specific environmental variables; and

WHEREAS, each and every day farmers across New York work to improve their environmental sustainability recognizing that appropriate natural resource management is critical to maintaining success of their businesses for future generations; supporting farmers in these endeavors is how government can best aid agriculture in protecting water quality; and

WHEREAS, we support state and locally driven collaborative initiatives which effectively use federal environmental funds and specifically address areas of high environmental risk and employ a farm-specific focus, such as NYS Department of Agriculture and Market's Agricultural Environmental Management Program; and

WHEREAS, we support NYS Department of Environmental Conservation's recommendations in their draft Phase I Watershed Implementation Plan which recognizes the environmental stewardship of New York farmers and inherent inequality of the current EPA proposal;

NOW, THEREFORE, be it

RESOLVED, That while the Chenango County Board of Supervisors fully supports responsible efforts to improve water quality in the Chesapeake Bay watershed and protect our State's environment and natural resources, we object to the unfair and unattainable mandate the Chesapeake Bay TMDL forces upon our local governments, local communities and family farms; and be it further

RESOLVED, that the Chenango County Board of Supervisors urges its Congressional and State representatives to intercede with EPA, and enact superseding legislation if required, to delay implementation of the Chesapeake Bay TMDL and request that EPA report to them on their response and adaptations regarding the aforementioned concerns; and be it further

RESOLVED, That the Clerk of this Board of Supervisors shall forward certified copies of this Resolution to Senator Charles Schumer, Senator Kirsten E. Gillibrand, Congressman Michael Arcuri, Governor David A. Paterson, Senator James L. Seward, Senator Thomas W. Libous, Assemblyman Clifford W. Crouch, Assemblyman Gary D. Finch, Assemblyman Peter D. Lopez, the Commissioner of the NYS Department of Agriculture and Markets; the Commissioner of the NYS Department of Environmental Conservation and EPA Region 2 and 3 Administrators.

Seconded by
